1.	<p>We have been offering in the past for your Ball Valves Tender. However we were rejected due to the fact that Armaturity is not included in your old historical short list of approved vendors.</p> <p>I would like to emphasize that Armaturity is one of the <u>main supplier for High Pressure Ball Valves to INGL (Israeli Gas Pipe line) for the Gas transportation, as well as to IEC (Israel Electric).</u></p> <p>Both above application (gas, high pressure) are much tougher application, and only few companies could meet those applications and standard. Yet we are not on your approved bidders list.</p> <p>ARMATURY Group a.s.</p> <p>We have visited last year at your premises, met with your Mr. Dorin Petculescu, and presented Armaturity capability. We would much appreciate if you let us know what else could be done to get us on your approved vendor list.</p>	<p>Not approve.</p> <p>In order to approve any other manufacturer, EAPC Engineering Department must examine his Goods thoroughly according to its professional discretion. Since such examination can take considerable time, it cannot be done in an ongoing Tender. If you are interested to start / continue this examination, you can apply to Eng. Dorin Petculescu via email: dorin@eapc.co.il</p>
