**Request for Information : Solutions and Ideas for Subsurface Soil Treatment Technologies**

**General**

1. EuropeAsia Pipeline Company Ltd. (hereinafter "the Company" or "EAPC") operates two oil and petroleum product storage facilities, a transport system to refineries, and two marine terminals for loading and unloading tankers.
2. EAPC invites start-ups, entrepreneurs, researchers, companies, higher education institutions, and other research institutes to submit proposals for solutions and ideas regarding subsurface soil treatment technologies.
3. Successful technologies may be integrated into the energy industry in general and EAPC in particular, subject to the details outlined in this document.

**Information Requested as part of the procedure**

Respondents are requested to present solutions and technologies for soil treatment, addressing the following:

1. Technology for soil treatment at depths of 2 to 6 meters, at least, in areas where excavation is prohibited. Treatment must be performed at depths where excavation is not, and will not be, permitted. Work through sleeves will be permitted.
2. The treatment environment is densely populated with fuel pipelines and other infrastructure.
3. Cathodic protection of the pipelines is in place at a depth of approximately 2-3 meters and is insulated with an epoxy coating/paint. Any impact on the cathodic protection system or other infrastructure (e.g., fire suppression, electrical pipelines) is prohibited.
4. The proposed technology must not alter oxygen concentrations in the subsurface, i.e., no air injection or extraction.
5. Provide an estimate of the treatment area in square meters. Specify any impact on groundwater and the sea near the company's sites, if any.
6. Present all necessary investments for a pilot project and subsequent large-scale implementation, including financial investment and manpower.

7. For detailed hydrogeological information, please contact [malia@eapc.co.il](mailto:malia@eapc.co.il) or [abevech@eapc.co.il](mailto:abevech@eapc.co.il).

### **Miscellaneous**

1. To clarify, the purpose of request for information is to gather information only. It does not constitute a tender or any other binding procedure, and it does not imply any commitment by the company to enter into a contractual agreement with any party and/or to publish a tender on the subject or to take any other action. Responding to this request does not grant any advantage to the respondent.
2. The company may, at its discretion, contact any of the respondents and/or other relevant parties to complete information, receive documents or clarifications, or other additional details needed by the company to evaluate and examine the proposal. It may also summon respondents, or some of them, to present the research and/or development and/or products subject to the request before the company.
3. The company will be entitled to use any information received from the respondents within the framework of this request for information , subject to the provisions of the Tenders Ordinance, 5753-1993, and the provisions of any law applicable to the company.
4. If the company chooses to contract with any of the respondents, this will be done in accordance with its internal procedures and in accordance with the provisions of any applicable law.
5. To clarify, it is understood that the mere submission of a response to this request for information will not grant any advantage to the respondent in the company's competitive processes.
6. Any changes or additions made to the documents of request for information by the respondent will not have legal validity and will not obligate the company.
7. The company will not be liable for any expenses, costs, or damages incurred by any party as a result of the publication of this request for information or the submission of a response to this request for information by the respondents.
8. The company may change the terms of this request for information from time to time at its sole discretion and may cancel this request for

information or publish another request for information in any other field it deems appropriate.

9. Respondents are requested to submit the questionnaire and their response using the provided form.
10. For contact and questions, please contact [malia@eapc.co.il](mailto:malia@eapc.co.il) or [abevech@eapc.co.il](mailto:abevech@eapc.co.il).
11. All the information requested above must be submitted by January 12, 2025, by 11:00 AM to [malia@eapc.co.il](mailto:malia@eapc.co.il) or [abevech@eapc.co.il](mailto:abevech@eapc.co.il).

### **Evaluation Criteria**

1. Suitability of the idea, technology, and/or product to the company's needs in the relevant field and its business strategy.
2. Suitability of the idea, technology, and/or product to the company's needs; its technological and economic feasibility; risks involved; complexity; and implementation challenges within the company.
3. Timetables for development and/or implementation of the technology/product.
4. Quality of the proposer and relevant parties, including reputation in the relevant field, infrastructure and resources, capabilities, and gaps.
5. Any other relevant criterion at the company's sole discretion.
6. The criteria described above will be examined, in whole or in part, at the company's discretion.
